

OVERSIGT OVER HUDPLEJEPRODUKTER

som kan anvendes sammen med klorhexidinsæbe

Opdateret januar 2007

STATENS
SERUM
INSTITUT

Nogle hudcremer nedsætter virkningen af klorhexidin. Dette har betydning i forbindelse med behandling for stafylokokbærertilstand, som blandt andet består i helkropsvask med klorhexidinsæbe. Denne liste omfatter danske og udenlandske produkter. Listen opdateres jævnligt på baggrund af oplysninger fra producenter og forhandlere.
